PROFESSIONAL SUMMARY

Information Technology student with hands-on experience in **full-stack web development** using **MERN technologies** and modern JavaScript frameworks. Strong understanding of **core computer science fundamentals** and continuously improving **algorithmic thinking** and **problem-solving skills**. Passionate about building scalable real-world applications and collaborating with teams to develop impactful technology solutions.

TECHNICAL SKILLS

Languages: C, JavaScript, Java, Python, SQL
Frameworks/Libraries: React.js, Redux, Express.js, Node.js, Tailwind CSS
Web Technologies: HTML, CSS
Databases & Tools: MongoDB, SQL, Git, Vite, VS Code

EDUCATION

Gujarat Technological University (GTU), Ahmedabad, India Sept 2022 – May 2026
B.Tech in Information Technology
CGPA: **9.0/10**

New Education High School, Gujarat, India Jun 2021 – Apr 2022
Higher Secondary Certificate (HSC)
Percentage: **80%**

WORK EXPERIENCE

Web Developer Intern — KrishaWeb, Ahmedabad Jan 2026 – Present

- Developed backend functionalities using **PHP** and contributed to frontend development using **HTML, CSS**, and **JavaScript**.
- Implemented dynamic UI features and improved user interaction based on project requirements.
- Collaborated with cross-functional teams and adapted to multiple technologies used in the project stack.

Frontend Developer Intern — Tech Elecon, Anand Jun 2025 – Jul 2025

- Built and maintained an **HRMS (Human Resource Management System)** for employee data and attendance tracking.
- Implemented advanced **React concepts** including **custom hooks**, **Context API**, and structured **state management**.
- Improved component reusability and overall maintainability of the application.

PROJECTS

DevConnect GitHub

- Built a developer networking platform using **React**, **Redux**, and **Tailwind CSS**.
- Implemented **user authentication** and **real-time messaging features**.
- Designed responsive UI components for seamless experience across desktop and mobile devices.

SecondHand Bazar GitHub

- Developed a **second-hand marketplace platform** where users can buy or rent items.
- Built using **React** (frontend), **Node.js** and **Express.js** (backend), with **SQL database**.
- Implemented modules including **user authentication**, **profile management**, **dashboard**, and **state lifecycle management**.
